

At Kafe Utu, our cocktails are more than just drinks, they're little stories in a glass, each one is inspired by the flavours, memories, and emotions that shape our everyday experiences.

Our founder's travels across Africa have left an imprint on every sip, from the spice-laced air of coastal markets to the sweetness of sun-ripened fruit and the smoky warmth of evening fires. These moments come together in flavours that feel familiar yet transport you somewhere new.

Every cocktail is crafted to awaken your senses to taste, smell, and feel a memory that's both personal and shared. Slow down, take a sip, and let the flavours tell their story.

We take great care in preparing every drink that leaves our bar. If you have any allergies or dietary sensitivities, please let our team know before ordering so we can guide you through our ingredients and preparations.

While our bar handles a variety of ingredients, please rest assured that we do our best to minimise cross-contact in every way we can. We appreciate your understanding.

FRESH AFRICAN JUNIPER GIN

A rare, premium, award-winning African craft gin from Kenya's first craft distillery, Procera which proudly represents Africa on the World stage. Distilled in Nairobi, Kenya, their gins are the first to showcase African Juniper (*Juniperus Procera*), a unique species native to high-altitude regions of East Africa.
